

### County disciplinary administrator report

This season has seen a reduction in the number of red cards issued. I have had to process 4 instances.

There have been 3 instances of umpire abuse and the other red card was a technical red card for two yellows of the same offence. Specific details and information will not be reported to the AGM but can be discussed within the committee.

The county continues to maintain its reasonable disciplinary record and although we are a long way off from being exemplary we are improving.

There has been a Regional Disciplinary administrator who hasn't been as hands on as the previous occupant of the role was and there wasn't a regional meeting this year to bring all the county representatives together.
